(a) hospitalization, medical examination or treatment, including mental, for any person in the custody of the Force except where the Force is acting in a specific Federal capacity;

(b) transportation, maintenance, escort, fees and costs for persons required as witnesses in criminal and civil proceedings and proceedings under Provincial laws;

(d) services of a solicitor to assist in conducting any prosecution for an offence alleged to have been committed within the Municipality;

unless the Province accepts responsibility for these expenses;

(2) The Municipality shall provide, without cost to Canada, stenographers and such other support staff as may be necessary to aid in carrying out the Municipal Police role.

10. (1) Canada shall supply equipment of a standard and quantity which, in the opinion of the Commissioner, is necessary to carry out the responsibilities imposed by this Agreement;

(2) In the event of termination of this Agreement, ownership of equipment purchased during the term of this Agreement for Municipal Police purposes may, at the request of the Municipality and with approval of the Commissioner, be transferred to them by that Municipality paying the net market value which shall be the amount remaining after

applying the Municipal percentage contribution in the year of purchase to the current market value. Should the Municipality not acquire ownership then the Federal Government will credit that Municipality with the net market value which shall be the amount remaining after applying the Federal percentage contribution in the year of purchase to the current market value;

(3) Equipment having an original cost of $100,000 or more per unit, which was purchased during the term of this Agreement and subsequently sold or transferred from Municipal Police Services, and which has a market value, shall result in a credit to the Municipality determined by applying the Municipal percentage contribution, in effect at the time of purchasing, to the current market value.

11. (1) For the purpose of this Agreement, the Municipality shall reimburse Canada in respect of the fiscal year 1976/77 an annual sum calculated on the following basis:

(a) 52% for each of the first five members, and

(b) 77% for each additional member,

of the average cost per member of maintaining and operating Municipal Police Services during the preceding fiscal year, plus the average cost of overtime per member as determined in sub-paragraph (5), providing that the amount to be paid by the Municipality is not less than the amount paid by the Municipality for the 1975/76 fiscal year. In respect to each subsequent fiscal year in which this Agreement continues in effect, the percentage of 52% for each of the first five members and 77% for each additional member will be increased by 1% until a maximum of 56% for each of the first five members and 81% of each additional member is reached in the fiscal year 1980/81;

(2) For the purpose of this Agreement the average cost per member of maintaining and operating Municipal Police Services shall be determined on the basis of the total expenditures, excluding overtime, made

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

by Canada to provide Municipal Police Services in the municipality calculated in accordance with the subsequent provisions of this paragraph, and divided by the number of members as of March 31 of the previous fiscal year employed to carry out the Municipal Police Services in such Municipality;

(3) This cost shall include the following:

(a) the direct cost, excluding overtime, of Municipal Police Services, in the Municipality that are attributable to the performance of those duties pursuant to this Agreement. These costs shall include all operation, maintenance and purchase of equipment expenditures up to an amount of $100,000, but shall not include expenditures incurred to transfer members to or from the municipality;

(b) the cost of pension contributions calculated as 12% of pay of members employed in the Municipal Police Services;

(c) an allocation of those categories of overhead cost incurred to sustain Municipal Police Services multiplied by the number of members employed in the Municipal Police Services, and determined as follows:

(i) the average cost per member of Divisional Headquarters administration, calculated by dividing the total cost of Divisional Headquarters administration in the Division, including the pension contribution calculated at 12% of pay of those members employed on that duty, by the total number of members in the Division as of March 31 of the previous fiscal year, excluding Divisional Head-quarters administration manpower;

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

(ii) the average cost per member of recruit training calculated by dividing the total cost of such training, including 12% of members' pay for pension contributions, by the total number of members of the Force as of March 31 of the previous fiscal year;

(d) expenses for Municipal prisoners, at joint Municipal/Provincial Detachments;

(e) an amount equivalent to the straight line amortization of the capital cost of any equipment item costing $100,000 or more, that is acquired for Municipal Police Services, over the estimated life of such equipment not to exceed 10 years;

(4) This cost shall exclude expenditures in connection with Civil actions, compensation claims, and ex-gratia payments;

(5) Notwithstanding any other provisions in paragraph 11, the Municipality shall reimburse Canada at the percentage rate stated in sub-paragraph (1), in respect of overtime costs incurred in the Municipality during the current fiscal year;

(6) The Commissioner shall provide the Attorney General with an annual statement of expenditures and revenue by the Municipal Police Services in a manner and form to be mutually agreed upon;

(7) As part of the Budget Planning Cycle, the Commissioner shall consult with the Chief Executive on or before October 1st of each year in order to establish the resources, members and support staff required to maintain an adequate level of Municipal Police Services, during the fiscal year commencing eighteen (18) months later;

(8) The Commissioner shall submit to the Chief Executive on or before November 1st of each year, a statement

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

of the estimated cost, based on the current fiscal year Forecast of Expenditures of Municipal Police Services, to be borne by the Municipality for the next fiscal year;

(9) Upon receiving reasonable notice, the Commissioner shall provide the Chief Executive with additional information relating to the cost of Municipal Police Services including overtime.

12. Where an increase or decrease in the strength of the Unit, pursuant to paragraph 5, results in a member thereof serving the Municipality for a period less than a fiscal year, the Municipality shall pay Canada in respect of the member a sum to be determined by dividing the figure 365 into the annual sum payable by the Municipality for one member of the Unit and multiplying the result by the number of days actually served by that member.

13. Notwithstanding anything in this Agreement, the Force may retain any fees and allowances allowed under any law to peace officers for work done and services rendered in connection with the administration of justice in the Province, which fees shall be remitted in accordance with Section 23 of the Royal Canadian Mounted Police Act.

15. All sums payable pursuant to paragraph 9 shall be paid within three months from the date a written request for payment is received by the Municipality.

16. Notwithstanding any other term of this Agreement, Canada shall have the right, in the event of default being made by the Municipality in payment of all or any part of any sums of money due under this Agreement, to cancel the Agreement without notice at any time after a period of three months from the date of such default.

Dear Mayor Preston:

Re: Policing Costs to Municipalities

This has reference to your telegram dated December 3, 1975, regarding policing costs to municipalities, and to the interim reply from my Special Assistant, Suzanne Smith, dated December 10, 1975. ✓

You are, no doubt, aware that discussions in this regard have taken place with the Provincial Attorney General, who is responsible for law enforcement in your Province, and I have recently provided him with some further details on the Federal Government's proposals.

The following details, which were also communicated to the District of Surrey, are for your information. The Federal Proposal had originally called for the municipalities to cost share at the rate of 60% for the first five men and 85% for each additional man. Our new proposal is to have the municipalities cost share at the rate of 52% for each of the first five members and 77% for each additional member. The Agreements would be for a five year term and the cost sharing ratio would raise one per cent per year until a maximum of (56-81) % is reached in the fiscal year 1980/81.

The financial formula has also been revised to identify more clearly the costs that are incurred for Municipal Police Services in the Province. On a comparison basis you will find that the total amount to be cost shared as a result of the new formula is less than the amount to be cost shared under the present formula; however, with increased service and inflation the 1976/77 costs will exceed your 1975/76 costs.

The original Federal proposal was for a larger share to be paid by the Municipality. A decision was made to phase-in the increase in order to reduce the financial impact on Municipalities and at the same time implement a more realistic cost sharing arrangement.

In negotiating new contracts with the Provinces, our discussions are following the line that the Force provide vehicles required for our commitments.

With this in mind, we should phase out all Non-Force Owned Vehicles by April 1976 replacing present vehicles by Force Owned Vehicles as they become worn out, if replacements are in fact required.

Please advise Municipalities concerned of our intentions and program replacements as required.

This has reference to Headquarters Telex DSS23 regarding non-police owned vehicles.

2. Attached are copies of reports from Langley, Trail, and Coquitlam Detachments which are self-explanatory.

3. The reasons for Penticton Det having a municipally owned vehicle are as follows. Penticton City Council were concerned with the ominous traffic situation in the community especially during the summer months when their regular population of approximately 10,000 persons increases 4 - 5 times with the influx of tourists. During discussions with the Det Commander, they offerred to supply an unmarked car to upgrade policing in general and traffic law enforcement in particular. They purchased the car with funds they had allotted for one permanent Identification man and six additional men for the summer months which the Force was unable to supply. The NCO i/c advises that with this additional unmarked vehicle, they have been able to provide the area with an increased level of police coverage.

RECEIVED NOV 19 1974 "K" SUB-REG.

4. Trail Det advise that they will not require a replacement for the municipally owned vehicle when it is returned to the municipality.

5. However, should HQ direct that the non-Force owned vehicles be returned to the municipalities and province, Force owned replacements will be required at Langley, Penticton, and Coquitlam Detachments.

6. HQ advice is requested please as to what action is to be taken with regards to the non-Force owned vehicles in use in this Division.

2. The Unit shall, subject to the provisions of this Agreement, remain under the control of Canada.

3. The Unit shall perform in the Municipality such duties and render such services, and no others, as are ordinarily performed by police constables in aiding the administration of justice and in carrying into effect the laws in force therein, but specifically the Unit shall not be called upon to engage in

(a) the issue of licences, the collection of licence fees, or the carrying out of inspections regarding licences;

(b) the collection of any taxes or any monies other than fines or court costs for or on behalf of the Municipality;

(c) the impounding of any dogs, cattle or other animals; or

(d) the carrying out of inspections in respect of by-laws relating to health, sanitation or fire prevention.

4. The Member in Charge of the Unit shall

(a) in enforcing by-laws of the Municipality, act under the lawful direction of the Chief Executive of the Municipality, or such person as may be designated in writing for this purpose by the Chief Executive; and

(b) report as often as requested to the Chief Executive of the Municipality, or to such person as may be designated in writing for this purpose by the Chief Executive, on the subject of law enforcement in the Municipality.

5. The Municipality shall, when requested by the Member in Charge of the Unit, provide without cost to Canada the services of a solicitor to assist in conducting any prosecution of an offence alleged to have been committed within the Municipality.

6. Members of the Unit may retain any fees allowed under any law to peace officers for work done and services rendered in respect of any prosecution, which fees shall be remitted in accordance with Section 23 of the Royal Canadian Mounted Police Act.

7. In the event that the Municipality desires the removal of any particular member of the Unit, a request for such removal, in writing, together with the reasons therefor, shall be forwarded by the Chief Executive of the Municipality to the Commissioner, Ottawa, Ontario, who shall give such request full consideration and the Commissioner's decision thereon shall be final.

8. (1) For the purposes of this Agreement and subject to paragraph 11 following, Canada will provide at all times ..23..... members of the Force, but such members will not be replaced when absent by reason of two days off each week, attendance at training courses, time off on or in lieu of national holidays, annual leave or sickness, except where such sickness results in a member being absent in excess of thirty consecutive days.

(2) In the event of a major emergency, all or part of the Unit may be temporarily withdrawn from the Municipality, but such withdrawal shall not affect the financial arrangements herein provided for, and in such case Canada shall provide the Municipality with substitute police protection without additional cost to the Municipality.

(3) What constitutes a major emergency shall be wholly in the discretion of the Commissioner and his decision thereon shall be final.

9. (1) An annual sum calculated on the following basis shall be paid by the Municipality in respect of the members of the Unit:

(a) fifty percent for each of the first five members, and

(b) seventy-five percent for each additional member, of the average cost per member of maintaining and operating the Force during the preceding fiscal year.

9. (2) For the purposes of this Agreement, the average cost per member of maintaining and operating the Force during such preceding fiscal year shall be determined by dividing the total number of members serving in the Contract Provinces on the last day of the fiscal year into the amount that is obtained by adding together all the expenditures made by Canada during the fiscal year for the purposes of operating and maintaining the Force in the Contract Provinces, but not including expenditures relating to

(a) the acquisition or construction of land, buildings and works, or

(b) members of the Corps of Commissionaires, or

(c) the operation, including equipment, of "Marine" and "Air" Services and "Depot" Division,

and by addition to the quotient, so obtained, amounts in respect of training expenditures and pension charges calculated in accordance with sub-paragraph (3).

(3) The amounts to be added under sub-paragraph (2) as training expenditures and pension charges shall be respectively

(a) an amount equal to one-twenty-fifth of the average cost of training a recruit during the preceding fiscal year

and

(b) an amount obtained by dividing 1.44% of the total pay during the preceding fiscal year of all members of the Force, including members of "Marine" and "Air" Services and "Depot" Division by the number of members contracted for under municipal agreements as of March 31 of the said fiscal year.

(4) The Municipality shall also pay Canada nine cents for each mile travelled in excess of 3,100 miles per annum by motor vehicles provided by Canada and used for the purpose of this Agreement. The mileage shall be calculated semi-annually.

(5) All sums payable under this Agreement shall be paid semi-annually by cheque drawn in favour of the Receiver General of Canada and sent by mail addressed to the Commissioner, Ottawa, Ontario.

(a) furnished, heated and lighted office accommodation and janitor service together with telephone and water supply;

(b) heated and lighted jail cell accommodation together with bedding and water supply; and

(c) heated, when necessary, and lighted garage space for automobiles provided by Canada and used for the purpose of this Agreement.

(2) In the event that Canada provides and maintains for the use of the Unit any or all of the facilities mentioned in sub-paragraph (1), the Municipality shall pay Canada an amount which, in the opinion of the Commissioner, the Municipality would reasonably have been required to spend if it had provided comparable facilities.

11. The agreed strength of the Unit may be increased or decreased at the request of the Municipality, but any requested decrease which in the opinion of the Commissioner would affect the efficient policing of the Municipality may be refused and any requested increase which in the opinion of the Commissioner is not necessary may also be refused; the Commissioner's decision thereon shall be final in each instance.

12. Where an increase or decrease in the strength of the Unit, pursuant to paragraph 11, results in a member thereof serving the Municipality for a period less than a fiscal year, the Municipality shall pay Canada in respect of that member a sum to be determined by dividing the figure 365 into the annual sum payable by the Municipality for one member of the Unit and multiplying the result by the number of days actually served by that member.

in respect of any person charged with or detained in respect of an offence committed within the Municipality.

14. Where criminal proceedings are instituted against a person by Canada or any department or agency thereof, no expenses involved in the maintenance and subsistence of that person, shall be payable by the Municipality by reason only of this Agreement.

15. All costs, including maintenance and subsistence while en route, incurred in escorting a person charged with or convicted of an offence committed within the Municipality from the place where he is apprehended in Canada to the place of trial or to the institution where his sentence is to be served, as the case may be, shall be paid by Canada, except that where the person is located outside the Province he will be returned to the Province only upon the direction of the Attorney General of the Province.

1. Further to my minute dated June 5th, 1973, attached are copies of self-explanatory telex messages EA02/8280 and EA02/8281 from "E" Division indicating that effective July 1st, municipalities with populations under 5,000 are exempt from responsibility of providing police service and those over 5,000 are now responsible for providing their own policing.

2. As we have been policing Fort St. John, Merritt and Quesnel under the provincial agreement, it is reasonable to assume that they will be seeking a municipal contract with the Force. Would you therefore review the establishments proposed by "E" Division for the municipal and rural details for those three locations and thereafter provide me with your assessments and recommendations.

The Mayor,
Township of Langley,

Dear Sir:

Re: Policing of Municipalities
by the Force

A number of municipalities have written requesting a more detailed explanation for the increase in the R.C.M.P. municipal per capita cost of $16,267 for the fiscal year 1971/72 (actual) to $19,450 for 1972/73 (estimated). The difference is an amount of $3,183 or 19.6%.

The underlisted are the major contributing factors for the increase in the municipal per capita:

	Increase	% Contribution to Total Increase
Pay and Allowances	$2,136	67.1
Pensions	120	3.8
Training	156	4.9
Equipment	149	4.7
All Other Operating Costs	622	19.5
	$3,183	100.0

Pay and Allowances

Treasury Board approved a pay revision which averaged $1,000 per member per annum for 1972/73. In addition, Treasury Board approved a disutility benefit of $900 per member for the fiscal year 1972/73 for a combined pay and disutility increase of $1,900 per member. The disutility payment was comprised largely of earned compensation for overtime. The balance of the increase in the Pay and Allowances item is due to salary increases for other employees such as Public Servants. The overtime payments are reflected in these costs as part of the disutility benefit for the first time. We have been aware that thousands of man hours of overtime have been logged by our members on behalf of the provinces and municipalities each year for many years without compensation.

Pensions

Pension is calculated based on the annual payroll of the Force. The pay increase has resulted in a corresponding increase in the pension cost.

Training

The pay increase is the main reason for increased expenditures under this item, although it also reflects the general increase in costs of operation and maintenance of our training establishments.

Equipment

The total expenditure for equipment in the contract divisions is included in the per capita calculations. The increased expenditures in this category reflect both additional equipment and higher prices for it. (The increase in cost and quantity of items such as communication equipment, motor vehicles, etc. has resulted in the increase under this item.)

All Other Operating Costs

This item reflects the general price increases and the increased costs in travel, transportation, materials and supplies, etc.

A further analysis of the municipal per capita by Standard Object, which is the Federal Government expenditures classification system, is contained on the attached appendix.

We believe other police forces are experiencing a similar trend in their policing costs and our expenditures are not out of line with those of other Canadian municipal police forces.

.../3

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

It should be considered that $13,414 represents the direct personnel costs (salaries, pay and allowances) of the 1972/73 estimated municipal per capita cost of $19,450. The cost to a municipality of a typical ten man municipal contract based on current cost sharing ratios, is $121,560. The actual cost of direct pay and allowances paid by the Force to these ten men would be between $110,000 and $130,000 depending on their service. For a typical five man unit, a municipality would pay $48,625 while the direct pay and allowance cost to the Force would approximate $56,000.

I am concerned with our rapidly rising costs and you can be assured that we are making every effort to ensure that our costs are kept within reasonable limits.

Yours sincerely,

W.L. Higgitt,
Commissioner.

2. These Agreements are substantially the same as those currently in existence. We have shown the municipal strength which becomes effective on April 1, however, it is appreciated there may be some residual positions available later which could result in further increases in municipal contracts. Where applicable it should be explained to the municipalities that in accordance with established practise billing for additional positions will take place on the date the members are posted. In the Dawson City contract we have included the Identification position which was programmed and approved for the fiscal year 1971/72. It is appreciated this City has only agreed to pay for the services of one half of an Identification member, but inasmuch as you are actively pursuing the matter with the municipality we have, as stated, included this position in the contract strength.

3. We considered it advisable to confine the Salmon Arm contract to a one year period from April 1, 1971 to March 31, 1972 as you have not yet obtained the municipality's agreement for a strength adjustment as a result of their amalgamation with the Village of Salmon Arm. If this facet is resolved before April 1, we are prepared to forward a three year contract similar to the other Agreements for your Province.

4. I would appreciate your making every effort to expedite the signing of these documents and returning the original and both copies to this Headquarters.

D.T. Saul, C/Supt.,
Departmental Secretary.

AND WHEREAS the execution of this Agreement has been approved by the Lieutenant-Governor in Council of British Columbia, which by joining this Agreement, guarantees to Canada the payment of the costs of policing the Municipality by the Royal Canadian Mounted Police.

(b) "Commissioner" means the Commissioner of the Royal Canadian Mounted Police;

(e) "Force" means the Royal Canadian Mounted Police;

(f) "Member" means a member of the Royal Canadian Mounted Police, or a person appointed by the Commissioner pursuant to Section 7 of the Royal Canadian Mounted Police Act, Statutes of Canada 1959, Chap. 54, as amended, but does not include a member of the Royal Canadian Mounted Police Reserve or a member of the Royal Canadian Mounted Police "Marine" Services, "Air" and "Depot" Divisions;

2. The Unit shall, subject to the provisions of this Agreement, remain under the control of Canada.

3. The Unit shall perform in the Municipality such duties and render such services as are ordinarily performed by police constables in aiding the administration of justice and in carrying into effect the laws in force in the Municipality, but specifically the Unit will not be called upon to engage in

(a) the issue of licences, the collection of licence fees, or the carrying out of inspections regarding licences;

(b) the collection of any taxes or any monies other than fines or court costs for or on behalf of the Municipality;

(c) the impounding of any dogs, cattle or other animals; or

(d) the carrying out of inspections in respect of by-laws relating to health, sanitation or fire prevention.

4. The Member in Charge of the Unit shall

6. Members of the Unit may retain any fees allowed under any law to peace officers for work done and services rendered in respect of any prosecution, which fees shall be remitted in accordance with Section 23 of the Royal Canadian Mounted Police Act.

7. In the event that the Municipality desires the removal of any particular member of the Unit, a request for such removal, in writing, together with the reasons therefor, shall be forwarded by the Chief Executive of the Municipality to the Commissioner, Ottawa, Ontario, who shall give such request full consideration and the Commissioner's decision thereon shall be final.

8. (1) For the purposes of this Agreement and subject to paragraph 11 following, Canada will provide at all times ~~14~~ 1/3 members of the Force, but such members will not be replaced when absent by reason of two days off each week, attendance at training courses, time off on or in lieu of national holidays, annual leave or sickness, except where such sickness results in a member being absent in excess of thirty consecutive days.

(2) In the event of a major emergency, all or part of the Unit may be temporarily withdrawn from the Municipality, but such withdrawal shall not affect the financial arrangements herein provided for, and in such case Canada shall provide the Municipality with substitute police protection without additional cost to the Municipality.

(3) What constitutes a major emergency shall be wholly in the discretion of the Commissioner and his decision thereon shall be final.

9. (1) An annual sum calculated on the following basis shall be paid by the Municipality in respect of the members of the Unit:

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

(2) For the purposes of this Agreement, the average cost per member of maintaining and operating the Force during such preceding fiscal year shall be determined by dividing the total number of members serving in the Contract Provinces on the last day of the fiscal year into the amount that is obtained by adding together all the expenditures made by Canada during the fiscal year for the purposes of operating and maintaining the Force in the Contract Provinces, but not including expenditures relating to

(a) the acquisition or construction of land, buildings and works, or

(b) members of the Corps of Commissionaires, or

(c) the operation, including equipment, of "Marine" Services, "Air" and "Depot" Divisions,

and by adding to the quotient, so obtained, amounts in respect of training expenditures and pension charges calculated in accordance with sub-paragraph (3).

(3) The amounts to be added under sub-paragraph (2) as training expenditures and pension charges shall be respectively

(a) an amount equal to one-twenty-fifth of the average cost of training a recruit during the preceding fiscal year

and

(b) an amount obtained by dividing 1.44% of the total pay during the preceding fiscal year of all members of the Force, including members of "Marine" Services, "Air" and "Depot" Divisions, by the number of members contracted for under municipal agreements as of March 31 of the said fiscal year.

(4) The Municipality shall also pay Canada nine cents for each mile travelled in excess of 3,100 miles per annum by motor vehicles provided by Canada and used for the purpose of this Agreement. The mileage shall be calculated semi-annually.

(5) All sums payable under this Agreement shall be paid semi-annually by cheque drawn in favour of the Receiver General of Canada and sent by mail addressed to the Commissioner, Ottawa, Ontario.

(a) furnished, heated and lighted office accommodation and janitor service together with telephone and water supply;

(b) heated and lighted jail cell accommodation together with bedding and water supply; and

(c) heated, when necessary, and lighted garage space for automobiles provided by Canada and used for the purpose of this Agreement.

(2) In the event that Canada provides and maintains for the use of the Unit any or all of the facilities mentioned in subparagraph (1), the Municipality shall pay Canada an amount which, in the opinion of the Commissioner, the Municipality would reasonably have been required to spend if it had provided comparable facilities.

11. The agreed strength of the Unit may be increased or decreased at the request of the Municipality, but any requested decrease which in the opinion of the Commissioner would affect the efficient policing of the Municipality may be refused and any requested increase which in the opinion of the Commissioner is not necessary may also be refused; the Commissioner's decision thereon shall be final in each instance.

12. Where an increase or decrease in the strength of the Unit, pursuant to paragraph 11, results in a member thereof serving the Municipality for a period less than a fiscal year, the Municipality shall pay Canada in respect of that member a sum to be determined by dividing the figure 365 into the annual sum payable by the Municipality for one member of the Unit and multiplying the result by the number of days actually served by that member.

in respect of any person charged with or detained in respect of an offence committed within the Municipality.

14. Where criminal proceedings are instituted against a person by Canada or any department or agency thereof, no expenses involved in the maintenance and subsistence of that person, shall be payable by the Municipality by reason only of this Agreement.

15. All costs, including maintenance and subsistence while en route, incurred in escorting a person charged with or convicted of an offence committed within the Municipality from the place where he is apprehended in Canada to the place of trial or to the institution where his sentence is to be served, as the case may be, shall be paid by Canada, except that where the person is located outside the Province he will be returned to the Province only upon the direction of the Attorney General of the Province.

This will re-affirm my previous agreement to the amalgamation of the Langley Township and Langley City Detachments to operate out of the accommodation now provided by the Corporation of the Township of Langley.

The amalgamation date of 1 Apr 69 is quite acceptable.

Should any problems arise with regard to the actual physical move of the Langley City unit I am sure they may be resolved on a local level between yourself and the Officer Commanding New Westminster Subdiv or the NCOs in charge of the Detachments concerned.

As long as the Corporations of the Township and City of Langley maintain their separate corporate identities the policing contracts for the two areas must be drawn separately. This situation is similar to that encountered at North Vancouver where both the City and District are policed by the same Detachment, although we have separate policing agreements with the two Municipalities involved.

Re: Policing the Township of Langley
and the City of Langley

In review it is, I believe, evident that from the point of view of police efficiency and service to the public and insofar as the Municipality and City of Langley are concerned, financially, amalgamation would prove to be a most satisfactory arrangement.

Insofar as the RCM Police is concerned this amalgamation of policing could be effected as soon as agreement is reached between the two Municipal governing bodies involved.

I note that a copy of your letter of 2 Aug 68 was forwarded to the Mayor of the City of Langley and I am taking the liberty of also following this procedure.

Re: Policing the Township of Langley

(d) The amalgamated Detachment operating as a single unit and with all police, Magistrate and Family Court functions being concentrated within the present Municipal Detachment building, will lend itself to a greater degree of police cohesion and efficiency and will assist in establishing a higher standard of service to the general public than the present separate posts are capable of providing. A single operational unit will also assist in eliminating the perhaps annoying situation, insofar as the general public is concerned, wherein they are at times referred from one police post to another, depending on the origin of their complaint.

(e) The cost of communications (telephone) should be generally reduced for all parties concerned. Five trunk lines are presently in operation to the two Detachment offices and it is anticipated that this could be reduced to the present three trunks at Langley Municipal Detachment. Long Distance Tolls (paid by the RCM Police) would also be reduced. Insofar as the Force is concerned this would also result in a reduction of our radio equipment in that the Langley City Detachment base station would no longer be a requirement.

(f) Both the City and Municipality should benefit on the overall costs of Guards and Stenographers. The Municipal Detachment at present has 24 hour Guard coverage through the use of Municipal employees and the City hires casual Prisoner Guards on an "as required" basis. The latter cost would be eliminated. I understand that your Municipality is currently contemplating the hiring of an additional Stenographer and I recommend that this matter be held in abeyance until the form in which the future police operations are to be carried out in the Langley City and Municipal areas is decided upon. Amalgamation could well eliminate the necessity of hiring additional clerical help as the Stenographer presently located at Langley City Detachment would, presumably, be made available to the combined operation.

Mayor D. W. Poppy,
The Corporation of the Township of Langley,

Dear Sir:

Re: Policing the Township of Langley
and the City of Langley

Please refer to my letter of 8 Aug 68. I have now had the opportunity to review policing operations in Langley Township and Langley City Detachments and see no obstacles to the amalgamation of the two policing operations in these areas.

The only possible disadvantage seen at this time to amalgamation would be during the early stages in educating the general public of the Langley City area to accept the fact that their police office and Magistrates' Court are no longer situation in their present location. However, no insurmountable problems should be encountered in this regard.

There are many advantages to the amalgamation, a few of which I shall enumerate hereunder:

(a) Quarters - the present Langley Municipal Detachment building is ideally located and will provide adequate space for the operations of the combined Detachment.

(b) The combining of the two Detachments will result in the elimination of duplicate records and in some instances duplication of investigations. I understand that the Township of Langley and City of Langley are agreeable to making a private arrangement with regard to the division of contract cost for the member in charge of the combined post. We anticipate no increase in establishment due to the amalgamation.

(c) The overall police car mileage should be reduced as a result of the combined operations eliminating duplicate general preventive patrols and prisoner escorts, which will result in some saving to the Municipalities concerned.

Reference to your memorandum dated 8-AUG-68.

2. The amalgamation of Langley Municipal Detachment and Langley City Detachment, under separate Contracts as a single operational unit, is considered a progressive move conducive to an improvement over the present standards of efficiency in the two areas.

3. The following has been considered in reaching this conclusion:

DETACHMENT QUARTERS:

(a) The present Langley Municipal Detachment building is ideally geographically located and would provide adequate space for the operations of the combined Detachments.

ESTABLISHMENT:

(b) The Municipal and City authorities presently are in agreement that on amalgamation of the two Detachments their present Establishments should remain unchanged:

Langley Municipal Detachment - 13-1/3 members, inclusive of 1/3 member for the Identification Section.

Langley City Detachment - 6-1/3 members, inclusive of 1/3 member for the Identification Section.

Establishment - Amalgamated Detachment: 19-2/3 members.

Re: Policing the Township of Langley

...MAKE A PRIVATE agreement as to the division of contract costs for the member i/c of the Detachment.

The combined area involved is developing rapidly as a residential and industrial centre, and while the above Establishment is considered an estimate of the minimum number required to efficiently discharge the duties which the two local governments will expect their Police Force to carry out, I believe that the recommended Establishment should be adequate until such time as the combined operation has been thoroughly tested and it would appear that no Establishment revision should be necessary until 1970/71.

POPULATION:

(c) The present estimated population of the two areas is 19,960. The Lower Mainland Regional Planning Board, using the 1966 Census total of 18,567, have projected the total population for 1971 as 21,700.

TRANSPORT:

(d) Four (4) Police vehicles are on charge at the two Detachments. The Municipality of Langley supply one (1) unmarked vehicle for the use of their Detachment. Five (5) vehicles will meet the needs of the combined Detachments until such time as increases in the Establishment are necessary. Undoubtedly, overall mileage will be reduced through combined operations eliminating duplicate general patrols and prisoner escorts.

OPERATIONS:

(e) The amalgamated Detachments would operate as a single unit with a breakdown into two General Duty Patrol Sectors. All Police, Magistrate, and Family Court functions would be concentrated within the present Municipal Detachment Building. This would lead to a greater degree of Police cohesion and efficiency, as well as establish higher standards of service to the general public than the present separate Establishments are capable of providing.

The geographical location and the identification of the present Detachment areas lead to constant confusion and duplicity, in the direction of complaints, enquiries, mail, and telephone calls, with resultant time consuming frustration to our members, as well as creating false impressions as to general efficiency with the general public, other Detachments and Police Forces. A single operational unit would assist in eliminating these detrimental and annoying factors.

Re: Policing the Township of Langley

Efficiency as well as a conservation of Police car mileage, will result from the elimination of duplicated general patrols and investigative efforts, through the combined areas being open to investigators. A common situation in enquiries conducted by the present separate Establishments is that files, which may well have been disposed of in the course of a single patrol, necessitate forwarding to the adjoining Detachment, entailing additional clerical duties and mileage.

Consolidation of the two administrations will result in a reduction of man-hours necessary for duplicated administrative duties and full utilization of the Municipally employed Stenographers.

The pooling of general detachment records, and intelligence of the individual members, will assist establish a correlative general police effort which should result in a higher degree of general efficiency being maintained in the investigation of crime and the execution of general patrols.

SERVICES:

(f) Telephone: Cost of communications should be generally reduced for all the parties concerned. Five (5) trunk lines are presently in operation to the present offices; this could be reduced to the present three (3) trunks entering the Langley Municipal Detachment Office. Total amount of long distance tolls should be reduced through pooling of the calls to Sub/Division and Crime Index, which account for the majority of such expenditure.

F.M. Radio: The present base station at the Langley City Detachment has proven so detrimental to efficiency that most radio messages to Langley City Office, or patrol units, are relayed through Langley Municipal Detachment Radio. The present Langley Municipal Radio installation has good contact with outside points and could maintain contact with patrol units in any part of the two Detachment areas.

MUNICIPAL - CITY EMPLOYEES:

(g) The City and Municipality should benefit on the overall cost of Guards and Stenographers, through a division of costs in these services.

Re: Policing the Township of Langley
and the City of Langley

At present the Municipality has 24-hour guard coverage through the use of Municipal employees. These employees also act as fire base operators for the City and Municipality as a result of an agreement as to the division of the total wages. This agreement would be amended on consolidation of the Detachment Establishments and would benefit both parties. The City has been obliged to meet a considerable monthly outlay for the hire of casual employees as the need would arise for prisoner guards, and the advantages particularly to the City in sharing costs for permanent employees in this position is obvious.

4. Contemplation of the overall picture as a result of the amalgamation of these two Detachments instills confidence as to the success of such an operation with marked superiority, over previous standards of efficiency, on a minimum expenditure of personnel, services and material.

5. The Municipality of Langley is contemplating the hiring of an additional Stenographer, and I would recommend that this matter be placed in abeyance until such time as the form in which the future Police operations are to be carried out in the Langley City - Langley Municipal areas is decided upon. Should the amalgamation be proceeded with, the services of the Stenographer presently at Langley City Detachment should eliminate the necessity of hiring an additional Stenographer in 1969/70.

6. The most evident disadvantage in amalgamating these two Detachments will be encountered during the early stages of such operation in educating the general public in Langley City to accept that their Police Office and Magistrates' Courts are situated two (2) miles East of their present location, and to become accustomed to the eventual use of the Langley Municipal Detachment telephone number.

and the City of Langley

Further to our previous correspondence and your letter of March 7th, 1967.

The question of joint operation of the two Royal Canadian Mounted Police Detachments has again been discussed by representatives of the two municipalities.

In your letter, you indicated that a complete investigation would be carried out to determine the desirability and feasibility of this proposal. Would you be prepared to now carry out such an investigation and let the Municipal Council receive your recommendations?

Yours truly,

D. W. POPPY,

2. While the enclosed agreements cover a three year period, it will be noted that they may be terminated by either party upon six (6) months' written notice. I would like you to draw this feature to the attention of the Municipal officials. I believe they have already been notified of the change in paragraph 5(1) whereby members are not to be replaced when absent in attendance at training courses.

3. Under paragraph 10(2) of the agreements, municipalities are required to reimburse Canada for office, cell and garage accommodation together with furniture, telephone, heat, light, water and janitor service when these facilities are provided by Canada. The amounts to be charged the municipalities concerned in your Division from April 1st, 1968 are as follows:

MUNICIPALITY	MONTHLY RENTAL
Campbell River	$230.00
Courtenay	129.00
Duncan	142.00
Enderby	116.00
Fernie	116.00
Grand Forks	101.00
Mission	225.00
North Cowichan	118.00
Salmon Arm	116.00
Squamish	51.00

The foregoing amounts have been computed in accordance with the formulas outlined in my memorandum of November 16th, 1967. Variations between these amounts and those listed in paragraph 8 of that memorandum are the result of changes in establishment, the area of operational space, the rent paid by the Force and, in some instances, errors in the previous computation of operational space.

4. I would appreciate your making every effort to expedite the signing of these agreements, returning the original and all copies to this Headquarters together with a letter from the municipalities concerned accepting the rental charges for accommodation. The contract for policing the City of Greenwood will be forwarded in the near future.

2. In addition, the following Agreements are attached:

(a) Alberni (City), 5 members, April 1 to October 27, 1967.

(b) Port Alberni (Corporation of the City), 13 members, April 1 to October 27, 1967.

(c) Port Alberni (City), 18 members, October 28, 1967, to March 31, 1968.

3. Under the terms of Paragraph 10(2), the municipalities concerned will be charged the amounts indicated for facilities provided by the Force. A letter specifically accepting this charge should be obtained from the municipality and forwarded with the signed contract.

4. Under Paragraph 10(1) of the Agreements, municipalities are required to provide suitable office, cell and garage accommodation together with furniture, telephone, heat, light, water and janitor service. Under Paragraph 10(2) a municipality is required to re-imburse Canada for such facilities provided by Canada, in an amount which, in the opinion of the Commissioner, the Municipality would reasonably have been required to spend if it had provided comparable facilities. In some instances, the rates charged to municipalities were established many years ago and have not been amended since despite changes in accommodation and establishment and marked increases in the cost of providing the facilities. In more recent years, some rates have been

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

computed on the basis of $20 per month for the first member and $15 per month for each additional member under contract. In order to place these charges on a standard and equitable basis, the following new formulae have been devised:

(i) Crown-Owned Detachments

$$\text{Monthly rental to Municipality} = \frac{a}{b}\left(\frac{\$2.5x}{12}\right)$$

(ii) R.C.M.P. - Rented Detachments

$$\text{Monthly rental to Municipality} = \frac{a}{b}\left(\left(\frac{xr}{y}\right) + \left(\frac{\$1.25x}{12}\right)\right)$$

a = Establishment of Municipal Detail as of April 1st.

b = Establishment of Combined Rural and Municipal Detail as of April 1st.

r = Monthly rental paid by R.C.M.P. for total space at Detachment.

x = Area of "operational space" of Detachment.

y = Total space at Detachment.

"Operational Space" is the net space of all office, cell and garage functions. It excludes living quarters completely but includes halls, closets and storage areas in the office, garage and cell block.

5. Formulae (i) and (ii) represent, for most combined rural and municipal detachments, a very equitable charge based on the present size and cost of providing the facilities concerned. Their application to some detachments, however, where the ratio of space to manpower is high, is not entirely fair. Accordingly, a third formula has been devised based on the average area of space per member throughout all combined rural and municipal Detachments of the Force. This formula is as follows:

(iii) $$\text{Monthly rental to municipality} = \frac{\$2.5ax}{12}.$$

a = Establishment of Municipal Detail on April 1st.

x = Average area of operational space per member for all combined rural-municipal Detachments.

6. It will be noted that in formula (i) the rental is based on a rate of $2.50 per square foot of operational space prorated in the ratio of Municipal Establishment to Combined Establishment. In Formula (ii) the rental is based on the municipality paying a pro rata share of the rent paid by the Force, plus a charge of $1.25 per square foot of operational space per annum to cover the cost of those services

....4

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

such as heat, light, water, janitor services, etc., which a Municipality is required to provide. The rates of $2.50 and $1.25, respectively, are somewhat lower than prevailing rates and were intentionally established in this manner in order that all municipalities, wherever located, will be treated fairly. To further ensure fairness, those municipalities where the municipal detail occupies Crown-Owned accommodation will be charged the lower of the rates computed on the basis of Formula (i) and Formula (iii); those where the municipal detail occupies R.C.M.P. - Rented accommodation will be charged the lower of the rates computed on the basis of Formula (ii) and Formula (iii). The rental charges will be reviewed and up-dated annually and will fluctuate according to changes in Establishment, area of operational space and rent paid by the Force.

7. The foregoing policy will be implemented as follows:

In 1967-68 - At those municipalities, only, where a new municipal contract is entered into, or where the municipal detail moves into new or enlarged accommodation provided by the Force during this year, e.g. Campbell River.

In 1968-69 - At all other municipalities where the municipal detail occupies space provided by the Force.

8. Outlined hereunder are the monthly rentals for the municipalities concerned in your Division, computed on the basis of the new formulae and on the Establishment and area of Operation Space in 1967-68. The rate marked (*) for Campbell River will apply from August 1, 1967, while the rates marked (**) are the approximate rates which will apply in 1968-69 to the other municipalities if the municipal details continue to occupy space provided by the Force, subject, as mentioned above, to the Establishment, the area of operational space and the rent paid by the Force as of April 1st, 1968.

Municipality	Formula (i)	Formula (ii)	Formula (iii)
Campbell River		$257.00*	$406.25
Courtenay		$62.50**	$156.25
Duncan		$102.00**	$156.25
Enderby		$120.00	$62.50**
Fernie	$121.00		$93.75**
Grand Forks		$47.50**	$93.75
North Cowichan		$102.00**	$156.25
Salmon Arm		$120.00	$93.75**
Squamish		$43.00**	$218.75

9. I would like you to advise the Municipalities concerned of the foregoing policy and of the approximate rental charges which will apply next year. You will note

....5

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

that commencing April 1, 1968, North Cowichan will be charged approximately $102.00 per month for space occupied by the municipal detail in Duncan, B.C. and I would like you to advise the authorities of the District of North Cowichan accordingly.

10. Finally, I would like you to inform the Municipalities and the Attorney General that consideration is being given to extending the period of the municipal contracts to cover two or three fiscal years and we would appreciate having their comments on this proposal. In such a contract, the per capita cost would be computed in the same manner as it is at present; i.e., the cost per member to the municipality for any particular fiscal year would be based upon the cost of operating and maintaining the Force during the previous fiscal year.

11. The long delay in forwarding the enclosed contracts is sincerely regretted. Drafting of these Agreements commenced in December, 1966; however, as you are aware, the authorizing Order-in-Council has just been received. I would appreciate your making every effort to expedite the signing and return of all copies of the contracts together with a copy of the authorizing Provincial Order-in-Council. Please keep this Headquarters apprised of any difficulties of which you may become aware with respect to the signing of the Agreements.

2. The Unit shall, subject to the provisions of this Agreement, remain under the control of Canada.

3. The Unit shall perform in the Municipality such duties and render such services as are ordinarily performed by police constables in aiding the administration of justice and in carrying into effect the laws in force in the Municipality, but specifically the Unit will not be called upon to engage in

(a) the issue of licences, the collection of licence fees, or the carrying out of inspections regarding licences;

(b) the collection of any taxes or any monies other than fines or court costs for or on behalf of the Municipality;

(c) the impounding of any dogs, cattle or other animals; or

(d) the carrying out of inspections in respect of by-laws relating to health, sanitation or fire prevention.

4. The Member in Charge of the Unit shall

(a) in enforcing by-laws of the Municipality, act under the lawful direction of the Chief Executive of the Municipality, or such person as may be designated in writing for this purpose by the Chief Executive; and

(b) report as often as requested to the Chief Executive of the Municipality, or to such person as may be designated in writing for this purpose by the Chief Executive, on the subject of law enforcement in the Municipality.

7. In the event that the Municipality desires the removal of any particular member of the Unit, a request for such removal, in writing, together with the reasons therefor, shall be forwarded by the Chief Executive of the Municipality to the Commissioner, Ottawa, Ontario, who shall give such request full consideration and the Commissioner's decision thereon shall be final.

8. (1) For the purposes of this Agreement and subject to paragraph 11 following, Canada will provide at all times .13-1/3. members of the Force, but such members will not be replaced when absent by reason of two days off each week, time off on or in lieu of national holidays, annual leave or sickness, except where such sickness results in a member being absent in excess of thirty consecutive days.

(2) In the event of a major emergency, all or part of the Unit may be temporarily withdrawn from the Municipality, but such withdrawal shall not affect the financial arrangements herein provided for, and in such case Canada shall provide the Municipality with substitute police protection without additional cost to the Municipality.

(2) For the purposes of this Agreement, the average cost per member of maintaining and operating the Force during the fiscal year shall be determined by dividing the total number of members serving in the Contract Provinces on the last day of the fiscal year into the amount that is obtained by adding together all the expenditures made by Canada during the fiscal year for the purposes of operating and maintaining the Force in the Contract Provinces, but not including expenditures relating to

(a) the acquisition or construction of land, buildings and works, or

(5) All sums payable under this Agreement shall be paid semi-annually by cheque drawn in favour of the Receiver General of Canada and sent by mail addressed to the Commissioner, Ottawa, Ontario.

10. (1) The Municipality shall provide and maintain at the request and to the satisfaction of the Commissioner, without cost to Canada, for the use of the Unit, the following facilities, namely:

(b) heated and lighted jail cell accommodation together with bedding and water supply; and

(c) heated, when necessary, and lighted garage space for automobiles provided by Canada and used for the purpose of this Agreement.

(2) In the event that Canada provides and maintains for the use of the Unit any or all of the facilities mentioned in subparagraph (1), the Municipality shall pay Canada an amount which, in the opinion of the Commissioner, the Municipality would reasonably have been required to spend if it had provided comparable facilities.

11. The agreed strength of the Unit may be increased or decreased at the request of the Municipality, but any requested decrease which in the opinion of the Commissioner would affect the efficient policing of the Municipality may be refused and

....7

any requested increase which in the opinion of the Commissioner is not necessary may also be refused; the Commissioner's decision thereon shall be final in each instance.

12. Where an increase or decrease in the strength of the Unit, pursuant to paragraph 11, results in a member thereof serving the Municipality for a period less than the fiscal year, the Municipality shall pay Canada in respect of that member a sum to be determined by dividing the figure 365 into the annual sum payable by the Municipality for one member of the Unit and multiplying the result by the number of days actually served by that member.

13. The Municipality, except as hereinafter provided, shall pay all expenses incurred

in respect of any person charged with or detained in respect of an offence committed within the Municipality.

14. Where criminal proceedings are instituted against a person by Canada or any department or agency thereof, no expenses involved in the maintenance and subsistence of that person, shall be payable by the Municipality by reason only of this Agreement.

15. All costs, including maintenance and subsistence while en route, incurred in escorting a person charged with or convicted of an offence committed within the Municipality from the place where he is apprehended in Canada to the place of trial or to the institution where his sentence is to be served, as the case may be, shall be paid by Canada, except that where the person is located outside the Province he will be returned to the Province only upon the direction of the Attorney General of the Province.

REQUEST FOR ESTABLISHMENT AMENDMENTS
"E" DIVISION

To be effective April 1st, 1967.

LOCATION - (Det., Sect., Br., or other unit) LANGLEY MUNICIPAL DETACHMENT

Sub-Division (if applicable) New Westminster

	S/SGT.	SGT.	CPL.	CST.	S/CST. Limbo 109	C/M	C/S	TOTAL
1966-67 Authorized Est.	1	2	9-1/3					12-1/3
Recommended Est. 1967-68	1	2	14-1/3					17-1/3
Amended by Div. Review:	1	2	10					13

DETAIL IN SUPPORT OF RECOMMENDATIONS:

THIS IS A MUNICIPAL RESPONSIBILITY

1. The following is a breakdown of the authorized Establishment for the year 1966/67: -

Municipal	12-1/3	
Provincial	Nil	Total 12-1/3

The last staff increase was granted in the year 1966/67 consisting of 1-1/3 members. The one-third position was to provide Identification service on an equal cost basis with the City of White Rock and Langley City.

3. The population is believed to be in excess of 17,000. Annual increase in the neighbourhood of 500. The area consists of 122 square miles or 78,489 acres.

4. Police car mileage : 1964 - 141,396
1965 - 147,227

5. Mixed farming forms the predominant occupation of the residents. There is a mixed extraction of Anglo-Saxon, Mennonites, Ukranians, Dutch, Swedish, Italians and Hungarians. There are three small Indian Reservations, i.e., Matsqui, Katzie, and McMillan Island, with a total population of approximately 270. The latter Reservation is located at Fort Langley and demands considerable attention as it is located within walking distance of licenced liquor outlets. The only D.N.D. Establishment is HMCS Aldergrove, which has a strength of approximately 150 members and families. Some months ago the Department purchased a large tract of land surrounding the naval station and it would seem there are plans for expansion, however, there is no local information available in this regard. The continual change in personnel taking place necessitates an increasing number of security investigations. No temporary assistance was supplied over the year.

. . . 2

Révisé par la direction générale de l'AIPRP Bibliothèque et Archives Canada / Reviewed by ATIP Branch Library and Archives Canada

6. Industrial activity remains fairly limited. The large majority of males are engaged in agriculture either in small dairy industry or local commercial dairy products and feed supplies. The following industries are established: -

MacDonald Cedar Products
W.S. Rogers Feed Company
B.C. Artificial Insemination Centre
Willock Manufacturing Co. Ltd.

A total of 618 building permits were issued during the year with a combined value of $3,452,703. In 1965 a racing motor car speedway was opened in the Southern part of the Municipality and proved to be an instant success. Upwards of 2,000 racing fans were attracted each racing day. There is some evidence that they may expand to evening races which would place an added burden on the members controlling traffic, etc.

7. Recent traffic counts of the Fraser Highway revealed that traffic increased by 30% over the preceding year. Daily traffic counts during July and August at the locations noted are as follows: -

Fraser Highway East of Langley	7,995
#13 Highway South of Aldergrove	1,435
#10 Highway	6,400
#401 East of Carvolth	10,380
Carvolth Rd.	2,965
Livingstone Rd.	1,640
County Line Rd.	1,995

In addition to the above, 108,862 motor-vehicles passed through the Customs Port at Aldergrove, an increase of 25% over 1964. Motor vehicle records indicate an increase of 3,325 made up of passenger cars, commercial, farm vehicles, trucks, and motorcycles.

8. The total number of motor-vehicle accidents in comparison with 1964 follows: -

	1964	1965
Fatal accidents	5	7
Persons killed	6	7
Persons injured	7	126
Injury accidents	60	77
Reportable accidents	215	231

9. There are 430 miles of travelled highways in this Detachment area consisting of: (a) 44 miles of Provincial Highway
(b)160 miles of paved roads
(c)226 miles of gravelled roads.

10.

	1964	1965
Revenue collected	$17,052.57	$15,964.62
Court cases	548	621

11. Statistics compiled at the National Parks "Fort" and the Centennial Museum at Fort Langley indicate a total of 117,000 persons registered during the year. Many more persons visit the Fort but do not sign the guest register. Traffic in and around the area becomes quite congested in the summer months.

12. No particular facet of policing is being neglected, however, in order to cope with increasing traffic problems and to increase preventive policing in this large sprawling Municipal area, additional members are necessary.

13. The following is the recommended Establishment for the fiscal year 1967/68: -

Municipal	17-1/3	
Provincial	Nil	Total 17-1/3

NOTE: An increase of five positions is being requested for the fiscal year 1967/68. A meeting has been arranged with the Municipal authorities to request them to authorize two additional positions and their decision will be forwarded as soon as possible. The three additional members are for the replacement of three municipally-paid guards who have been employed in the dual capacity of radio-telephone communication and prisoner guard. The latter three additions are requested solely as a result of the new statement of policy dealing with the security of prisoners.

Further to my submission of the 1-Mar-66, please be advised that I appeared before the Reeve and Council on the 17-Mar-66 at which time a request was made for an establishment increase of two members for the fiscal year 1967/68. The matter was then left in the hands of the Council for further referral to the Police Committee.

2. On the 1-Apr-66, I received a copy of a letter from the Municipal Clerk to the Commanding Officer "E" Division, advising that the Municipality has agreed to increase the detachment strength by one member during the period noted.

In the event that the Municipality desires the removal of any particular member of the Unit, a request for such removal, in writing, together with the reasons therefor shall be forwarded by the Chief Executive of the Municipality to the Commissioner, Ottawa, Ontario, who shall give such request full consideration and the Commissioner's decision thereon shall be final.

8. (1) For the purposes of this Agreement and subject to paragraph 11 following, Canada will provide at all times ..~~12~~.1/3 members of the Force, but such members will not be replaced when absent by reason of two days off each week, time off on or in lieu of national holidays, annual leave or sickness, except where such sickness results in a member being absent in excess of thirty consecutive days.

(2) In the event of a major emergency, all or part of the Unit may be temporarily withdrawn from the Municipality, but such withdrawal shall not affect the financial arrangements herein provided for, and in such case Canada shall provide the Municipality with substitute police protection without additional cost to the Municipality.

(3) What constitutes a major emergency shall be wholly in the discretion of the Commissioner and his decision thereon shall be final.

(b) seventy-five percent for each additional member,

of the average cost per member of maintaining and operating the Force during the fiscal year ending on March 31, 1966.

(2) For the purposes of this Agreement, the average cost per member of maintaining and operating the Force during the fiscal year shall be determined by dividing the total number of members serving in the Contract Provinces on the last day of the fiscal year into the amount that is obtained by adding together all the expenditures made by Canada during the fiscal year for the purposes of operating and maintaining the Force in the Contract Provinces, but not including expenditures relating to

(a) the acquisition or construction of land, buildings and works, or

(4) The Municipality shall also pay Canada nine cents for each mile travelled in excess of 3,100 miles by motor vehicles owned by Canada and used for the purpose of this Agreement. The mileage shall be calculated semi-annually.

(5) All sums payable under this Agreement shall be paid semi-annually by cheque drawn in favour of the Receiver General of Canada and sent by mail addressed to the Commissioner, Ottawa, Ontario.

10. (1) The Municipality shall provide and maintain at the request and to the satisfaction of the Commissioner, without cost to Canada, for the use of the Unit, the following facilities, namely:

(b) heated and lighted jail cell accommodation together with bedding and water supply; and

(c) heated, when necessary, and lighted garage space for automobiles owned by Canada and used for the purpose of this Agreement.

(2) In the event that Canada provides and maintains for the use of the Unit any or all of the facilities mentioned in subparagraph (1), the Municipality shall pay Canada an amount which, in the opinion of the Commissioner, the Municipality would reasonably have been required to spend if it had provided comparable facilities.

11. The agreed strength of the Unit may be increased or decreased at the request of the Municipality, but any requested decrease which in the opinion of the Commissioner would affect the efficient policing of the Municipality may be refused and

any requested increase which in the opinion of the Commissioner is not necessary may also be refused; the Commissioner's decision thereon shall be final in each instance.

12. Where an increase or decrease in the strength of the Unit, pursuant to paragraph 11, results in a member thereof serving the Municipality for a period less than the fiscal year, the Municipality shall pay Canada in respect of that member a sum to be determined by dividing the figure 365 into the annual sum payable by the Municipality for one member of the Unit and multiplying the result by the number of days actually served by that member.

13. The Municipality, except as hereinafter provided, shall pay all expenses incurred

(a) for medical certificates, and

(b) for maintenance, subsistence, medical services, civilian guards and matrons up to the time of sentence or committal for trial, and twenty-four hours thereafter,

in respect of any person charged with or detained in respect of an offence committed within the Municipality.

14. Where criminal proceedings are instituted against a person by Canada or any department or agency thereof, no expenses involved in the maintenance and subsistence of that person, shall be payable by the Municipality by reason only of this Agreement.

15. All costs, including maintenance and subsistence while en route, incurred in escorting a person charged with or convicted of an offence committed within the Municipality from the place where he is apprehended in Canada to the place of trial or to the institution where his sentence is to be served, as the case may be, shall be paid by Canada, except that where the person is located outside the Province he will be returned to the Province only upon the direction of the Attorney General of the Province.

(3) What constitutes a major emergency shall be wholly in the discretion of the Commissioner and his decision thereon shall be final.

9. (1) During the period from June 1, 1965, to March 31, 1966, ten-twelfths of an annual sum calculated on the following basis shall be paid by the Municipality in respect of the members of the unit provided pursuant to this agreement, namely,

13. Where an increase or decrease in the strength of the unit results in a member thereof serving the municipality for a period of less than ten months, the municipality shall pay Canada in respect of that member a sum to be determined by dividing the figure 304 into the sum payable by the municipality for one member of the unit in the ten-month period in which the services commenced in the case of an increase or terminated in the case of a decrease and multiplying the result by the number of days actually served by such member.

REQUEST FOR ESTABLISHMENT AMENDMENTS
"E" DIVISION

To be effective April 1st, 1966.

LOCATION - (Det., Sect., Br., or other unit) LANGLEY MUNICIPAL DETACHMENT

Sub-Division (if applicable) New Westminster

	S/SGT.	SGT.	CPL.	CST.	S/CST.	C/M	C/S	TOTAL
1965-66 Authorized Est.	1	2	8					11
Recommended Est. 1966-67	1	2	9-1/3					12-1/3

DETAIL IN SUPPORT OF RECOMMENDATIONS:

THIS IS A MUNICIPAL RESPONSIBILITY

1. The last staff increase was granted for the fiscal year 1965/66 and consisted of one Corporal position. The recommended increase of one man for 1966/67 is for the express purpose of increasing traffic enforcement. The 1/3 Constable position is to provide Identification Section services on a pro-rata basis, a service this Municipality has been receiving in the past from our Identification Section without charge.

2. The following is a breakdown of the authorized Establishment for the fiscal year 1965/66: -

Municipal 11
Provincial NIL Total 11

3. Statistics respecting this Municipal contract are as follows: -

(a) The population has been estimated to be in excess of 17,000. The Dominion Bureau of Statistics estimates a growth of 500 can be expected annually.
(b) Detachment area - 122 square miles, or 78,489 acres.
(c) Police car mileage 1963 - 126,598
1964 - 141,396

4. Density of population - mixed extraction predominantly Anglo-Saxon and mainly confined in and around Aldergrove, Fort Langley, Murrayville and Milner. Many of the residents are employed in Vancouver and New Westminster, and commute by car. The completion of the new Freeway (Highway #401) is making the area increasingly attractive to residents, and this is reflected by increased residential areas. There are 3 Indian Reservations, i.e., Matsqui, which has a population of 44; Katzie, with a population of 157, and MacMillan Island with a population of 77. The latter Reservation is located at Fort Langley and demands considerable attention as it is located within walking distance of licenced liquor outlets. The only National Defence Post is H.M.C.S. Aldergrove, which has an establishment of approximately 150 members and families. The continual change in personnel taking place necessitates an increasing number of security investigations; 29 of these were undertaken in 1963, and 54 in 1964.

5. Industrial activities are limited and a large percentage of the employable males are engaged in agriculture either in small dairy industry or local commercial dairy products and feed supplies. The following industries are established in Langley Municipality: -

MacDonald Cedar Products	150 employees
W.S. Rogers Feed Ltd.	50 employees
B.C. Artificial Insemination Centre	62 employees
Willock Manufacturing Co. Ltd.	70 employees

6. Workload Statistics:

	1963	1964
Complaints	2,907	3,238
Files: Criminal Code	342	296
Federal Statutes	22	23
Provincial Statutes	782	747
Others	182	222
Total	4,235	4,526
Revenue Collected	$18,738.00	$17,052.57

7. More application must be made to traffic enforcement, since at the present time traffic duties are carried out only when other duties permit. As stated in our previous submission for 1965/66, an increase of one man was authorized, and the present plans are that this additional man will be the commencement of a traffic section for the Municipality.

8. There are 430 miles of travelled highways in this Detachment, which consist of (a) 44 miles of Provincial Highway
(b)160 miles of paved roads
(c)226 miles of gravelled roads.

Comparative statistics have indicated that since the opening of the Freeway (Highway #401), the traffic of Fraser Highway (formerly Trans Canada Highway) has decreased, however, this is more than balanced by the increase of traffic on the Freeway and access roads in the Municipality, which, prior to the opening of the new Highway, were relatively quiet. Daily traffic counts during the months of July and August 1964, indicated a rate of 31,650 vehicles, as against 26,955 vehicles for the preceding year. 86,863 vehicles passed through the Port of Aldergrove during the period April 1, 1963, to April 1, 1964, an increase of 30% over the previous corresponding period. Motor-Vehicle Branch records reveal an increase of 4,725 registrations during 1964, made up of passenger cars, commercial and farm vehicles and motorcycles.

9. Traffic Statistics:

	1963	1964
Fatal accidents	3	5
Persons killed	7	6
Injury accidents	43	60
Persons injured	(no record)	97
Reportable accidents	153	215

10. Statistics compiled by the National Parks "Fort" and the Centennial Museum at Fort Langley, B.C. indicate that a total of 122,171 persons registered during the year 1964 as compared against 110,000 for the corresponding period in 1963. This indicates only those who registered through the visitors' book at the "Fort", while many more actually visit but do not register. Traffic in and around this area becomes quite congested, particularly on the weekends.

11. It is noted that the neighbouring Municipality of Surrey finds it necessary to maintain a large Traffic Section to the West of this Detachment area, and it is also pointed out that a Traffic Section operates on the Trans-Canada Highway within the Chilliwack Sub/Division immediately to the East of this Detachment. It is believed that all these factors, plus other increasing duties, support the need for additional personnel.

12. The authority for an increase of 1/3 Constable position for Identification work has been confirmed by the Municipal Clerk in his letter dated 2 December 1964. An appointment has been made with the Reeve and Council regarding the additional Constable position being sought and their decision will be forwarded as soon as possible.
